Jardín Tropical: A Perfect Combination of the Elements

Location

Water, earth, air... all these are spectacularly combined in this genuine paradise designed by the famous international architect Melvin Villarroel. The integration of the Arab-inspired architectural elements with nature and its beautiful subtropical gardens make this superior 4 star hotel a unique destination for lovers of good taste and tailored services.

The hotel is located on the Adeje Coast, the most exclusive area in southern Tenerife with an annual average temperature of 23 degrees. Our customers will be able to delight in its spectacular sunsets and enjoy its wonderful views of the Atlantic Ocean and La Gomera island. Indeed, the hotel has already collected countless awards, of which the Condé Nast Johansen Award to the Best Mediterranean & European Resort 2006 is particularly worth mentioning.

This recently refurbished hotel is located only 17 km from Reina Sofía airport (in the south of the Island) and 80 km from Los Rodeos airport (in the north of the island) and has 310 rooms and 80 suites on five floors, furnished to the smallest detail with Canary Island pine, stone and quicklime.

It is well worth a foray into it, strolling through its spectacular 12,000 m² subtropical garden among the over 1,700 species of trees and plants, where guests cannot fail to find numerous magic spots.

You can also relax in one of the sun loungers in our sun lounge, where you can take advantage of our free sunshades, sun loungers, mats and towels, or bathe in the freshwater pool decorated with large and small waterfalls while you enjoy the amazing views of the sea.

Accommodation

Each of the 310 rooms is decorated in warm colours and furnished with natural wood furniture. In addition, they all have modern comforts such as air conditioning, minibar, safe, telephone, LCD satellite TV and a balcony or terrace opening out onto the sea or our beautiful lush natural spaces so you can enjoy the pleasant sea breeze and the warmth of the Tenerife sun at any time while enjoying wonderful views.

The main features of its 80 suites, also luxuriously furnished to the last detail and comprising a large bedroom with a dressing room, a living room and a marble bathroom, are their colonial-style furniture and their exclusive services including an aromatherapy set and a pillow menu.

Room service is of course available to hotel customers 24 hours a day.

Cuisine

A great number and variety of culinary styles await Hotel Jardín Tropical guests in each of the five restaurants available for them to choose from.

“Las Rocas”: a well-regarded gourmet restaurant specialising in fresh fish and seafood masterfully combined with the traditional ingredients of Canary Island cuisine. Thanks to its clifftop location, customers can delight their eyes with its magnificent view of the Atlantic Ocean while regaling their sense of taste and smell with its extraordinary dishes.

This à-la-carte restaurant serves lunch and dinner and attracts tourists from all over Tenerife.

If you wish to enjoy a stylish atmosphere, “El Patio” is the restaurant for you. This restaurant, which concentrates on first class meat accompanied by a comprehensive selection of wines, live music and a refined service, will provide you with wonderful evenings.

“Las Mimosas”, the hotel’s gastronomic heart, delights its guests every morning with a generous breakfast in light, open surroundings. Whether we are talking about dishes prepared before customers’ very eyes or about deliciously ripe fruit, guests can choose from a huge variety of food at this buffet-style restaurant which is open for both lunch and dinner.

The à-la-carte restaurant “Las Cuevas”, which opens only for dinner, specialises in vegetables, meat and fish. No culinary desires will be left unsatisfied here.

“Los Cucuruchos” serves snacks, lunch and dinner in a very relaxed atmosphere. Here, customers can choose from a very comprehensive menu with all kinds of meats, fish, baguettes, sandwiches, burgers, milkshakes, ice cream cones and cakes, as well as a salad bar.

Bars

The “Lobby Bar” opens in the afternoon and serves coffee, tea and cake every day while you delight in a few fine piano notes.

“Los Cucuruchos” serves snacks on the partially covered poolside terrace. In addition, it also provides a salad bar every day from 1 pm to 4 pm.

“Las Rocas” bar, which is directly on the Beach Club, serves customers refreshing drinks next to the sea for thirteen hours a day. The “Café de Paris” opens at 8 pm and provides live music as well as a great variety of shows until 1 am while you enjoy its wide selection of cocktails ranging from the classical “mojitos”, “margaritas” and “caipirinhas” to the most elaborate drinks.

Wellness and Spa

Hotel Jardín Tropical offers customers who enjoy wellness activities or want an “active” holiday its recently refurbished well-being oasis “Tropical Wellness”. In addition to having a sauna, Turkish bath, algae and sea mud body wraps, jacuzzi, multi-jet showers and rest area with sun loungers, a variety of state-of-the-art individual treatments such as massage therapy, lymphatic drainage, reflexology, hot stone massage and aromatherapy, among others, are available in the spa area.

In the fitness area, tourists who prefer to enjoy their holidays in a more active manner can re-energise by practising yoga or attending stretching and pilates courses.

In addition, the centre has a Hairdressing and Beauty Salon offering facial and body treatments with the main cosmetic brands, perfect for restoring your skin's natural colour, firmness and luminosity.

On request, you can benefit from our club and shoe cleaning and care service as well as transfers from the hotel to the courses. We also organise tournaments and courses and, in case this isn't enough, Canal + Golf is available in every room. Lovers of this sport will find their own personal paradise in Jardín Tropical.

Tennis players can enjoy their favourite sport on clay courts only 400 metres from the hotel. If you would prefer something cooler, you can enjoy a great variety of sports activities in the water all year round. Tourists can choose

between water ski, scuba diving, parasailing, jet ski and motor boat excursions. The most daring surfers can give full rein to their hobby in El Médano, a windsurfer's paradise only 20 km away. Horse riders can explore the island on horseback.

Meetings and Conferences

If you are looking for a suitable venue for a small or medium-sized congress, meeting, conference or event, you will find what you need in Jardín Tropical's 4 meeting rooms spanning a total area of 640 m².

The distinguishing feature of the Ficus and Adelfas rooms, of 110 m² each, is that they have more than one entrance. In addition, they can be joined together to make a larger room. If used separately, they can each hold up to 100 people.

If you have a bigger event, "Kentias" is the perfect room for you. It has an area of 340 m² and can hold up to 400 people for a party, a congress or a meal. If necessary, the Kentias room can be subdivided into three rooms of the same dimensions as each other. Jardín Tropical has a fully equipped Business Centre with the most modern technical equipment: from a Wi-Fi Internet connection to the most advanced multimedia equipment.
